PERFIL

I've been working with open source projects for the past two years in order to gain experience to continue my career transition to software development with a focus on the backend.

I have courage, a lot of curiosity and passion to learn more and more so that I can grow within the company and continue to deliver a lot of value and results together to the group.

SKILLS

- Python
- Django MVT
- Git & GitHub
- MySQL
- SQLite
- Rest Api - Flask Api and FastApi
- Html | css | Js | Bootstrap
